Purpose and Scope of the Examination

OIR has primary responsibility for the regulation, compliance and enforcement of statutes related to the business of insurance premium financing and the monitoring of industry markets. OIR is required to examine each premium finance company not less frequently than every three years, pursuant to Section 627.834(2), F.S. Due to this responsibility, OIR conducted a market conduct examination of CAC Acceptance. The examination scope period was from January 1, 2019, to December 31, 2022. The examination was performed by members of OIR's Property and Casualty Market Regulation business unit.

The purpose of a market conduct examination is to review the premium finance company's operating practices to determine if they comply with the applicable provisions of the Florida Insurance Code, rules related to the business of insurance premium financing, the provisions contained within a premium finance contract issued by the Company, or orders issued by OIR. A common element of all market conduct examinations is to evaluate a premium finance company's business practices to promote the protection of insurance-buying consumers and to hold entities regulated by OIR accountable when issues or violations are found.

The examination began April 3, 2023 and ended August 23, 2023. The last examination of CAC Acceptance was completed as of December 31, 2018. That examination concluded the records of the company appeared in good order.

Examination Procedures

The conduct of this examination and the procedures, statistical sampling and examination processes used were consistent with and in accordance with those standards and procedures contained in the *Market Regulation Handbook* promulgated by the National Association of Insurance Commissioners (“NAIC”).

In preparation for the examination, the Company was requested to provide the total number, or universe, of premium finance agreements entered into during the examination’s scope period. The Company reported entering into a total of 742 premium finance agreements during the examination scope period.

The NAIC’s *Market Regulation Handbook* provides guidance regarding sampling methods utilized during market conduct examinations. A minimum confidence level of 95% is used to make inferences when a universe population is greater than 200 and permits those results to be extrapolated to the population of all premium finance agreements. The examiners reviewed a total of 113 randomly selected premium finance agreements. The number of randomly selected premium finance agreements in the sample is consistent with the recommended sample size for non-claims in the NAIC’s *Market Regulation Handbook*’s Acceptance Samples Table. Examination results with a 95% confidence level permit those results to be extrapolated to the population of non-claims in the premium finance agreement category. Based on the total universe of CAC Acceptance’s premium finance agreements subject to this examination, the total sample size required to achieve a 95% confidence level in both categories was determined to be 113.

In reviewing materials for this report, the examiners relied on records and information provided by the Company.

Findings

The examination focused on the Company’s use of approved forms and rates and evaluated specific statutory components required by the Company in the execution of premium finance agreements, including but not limited to finance charges, service fees, late and non-sufficient fund fees, and products financed. To determine the Company’s adherence to these statutory requirements, the examiners reviewed and analyzed each sampled premium finance agreement to determine if the agreement was executed in compliance with the Florida Insurance Code.

Finding 1: The examiners determined that in 62 instances out of 113 premium finance agreements reviewed, an error percentage of 54.9%, the Company issued a premium finance agreement form that was disapproved by OIR on November 30, 2019, as prohibited by Section 627.838(1), F.S. The Company’s current premium finance agreement form was approved by OIR on April 16, 2020.

Company Response: The Company agreed with the finding.

Finding 2: The examiners determined in 10 instances out of 113 premium finance agreements reviewed, an error rate of 8.8%, the Company accepted premium finance agreements that were not signed by or on behalf of the insured, as required by Section 627.839(1), F.S.

Company Response: The Company agreed with the finding.

The following recommendations were compiled from the Findings contained within this report, and observations noted during the examination. The Company is to provide a written report to OIR of actions taken on each Recommendation within 60 days of the Company's receipt of the Final Examination Report.

It is recommended that the Company:

- Ensure that only approved premium finance agreement forms are utilized and issued to insureds; and
