Purpose and Scope of the Examination

The Florida Office of Insurance Regulation (“OIR”) has primary responsibility for the regulation, compliance and enforcement of statutes related to the business of insurance premium financing and the monitoring of industry markets. Due to this responsibility, OIR conducted a market conduct examination of AFCO Credit pursuant to Section 627.834, F.S. The examination scope period was from January 1, 2019 to December 31, 2021. The examination was performed by members of OIR’s Property and Casualty Market Regulation business unit.

The purpose of a market conduct examination is to review the premium finance company’s operating practices to determine if they comply with the applicable provisions of the Florida Insurance Code, rules related to the business of insurance premium financing, the provisions contained within a premium finance contract issued by the Company, or orders issued by OIR. A common element of all market conduct examinations is to evaluate a premium finance company’s business practices to promote the protection of insurance-buying consumers and to hold entities regulated by OIR accountable when issues or violations are found.

The examination began April 1, 2022 and ended August 21, 2023. The last examination of AFCO Credit was completed as of December 31, 2018. That examination concluded the Company’s records were in good standing.

Examination Procedures

The conduct of this examination and the procedures, statistical sampling and examination processes used were consistent with and in accordance with those standards and procedures contained in the *Market Regulation Handbook* promulgated by the National Association of Insurance Commissioners (“NAIC”).

In preparation for the examination, the Company was requested to provide the total number, or universe, of premium finance agreements entered into during the examination’s scope period. The Company was also requested to identify premium finance agreements that were cancelled or received a refund from an insurer prior to the end of the premium finance agreement’s contract term. The Company reported accepting or entering into a total of 11,493 premium finance agreements during the examination scope period. Of the 11,493 premium finance agreements, 1,208 premium finance agreements were either cancelled or received a refund from the insurer or premium finance company prior to the end of the agreement’s term.

To facilitate a thorough review of the Company’s premium finance agreements and corresponding documentation, the total universe of premium finance agreements was divided into two categories: Premium Finance Agreements and Cancellations and Refunds. Each of the two categories were evaluated for compliance with the Florida Insurance Code.

The Company reported the universe of premium finance agreements for each category as follows:

- 10,285 Premium Finance Agreements; and
- 1,208 Cancellations and Refunds.

For purposes of this examination, the two categories were defined as follows:

- Premium Finance Agreements: The initial premium finance agreement entered into during the examination scope period that completed the full term of the agreement (the premium finance agreement was not cancelled midterm or the insured was not eligible for a refund); and
- Cancellation and Refunds: The initial premium finance agreements entered into during the examination scope period that were either cancelled prior to the end of the agreement’s term or were eligible for a refund from an insurer or the premium finance company.

The NAIC’s *Market Regulation Handbook* provides guidance regarding sampling methods utilized during market conduct examinations. A minimum confidence level of 95% is used to make inferences when a universe population is greater than 200 and permits those results to be extrapolated to the population of all premium finance agreements. The examiners reviewed a total of 230 randomly selected premium finance agreements. The number of randomly selected premium finance agreements in each sample is consistent with the recommended sample size for non-claims in the NAIC’s Market Regulation Handbook’s Acceptance Samples Table. Examination results with a 95% confidence level permit those results to be extrapolated to the population of non-claims in each of the two premium finance agreement categories. Based on the total universe of AFCO Credit’s premium finance agreements subject to this examination, the total sample size required to achieve a 95% confidence level in both categories was determined to be 230.

The 230 randomly selected premium finance agreements consisted of:

- 116 premium finance agreements; and
- 114 cancellations and refunds.

In reviewing materials for this report, the examiners relied on records and information provided by the Company.
