Purpose and Scope of the Examination

OIR has primary responsibility for the regulation, compliance and enforcement of statutes related to the business of insurance premium financing and the monitoring of industry markets. OIR is required to examine each premium finance company not less frequently than every three years, pursuant to Section 627.834(2), F.S. Due to this responsibility, OIR conducted a market conduct examination of Grove Bay. The examination scope period was from January 1, 2019, to December 31, 2022. The examination was performed by members of OIR's Property and Casualty Market Regulation business unit.

The purpose of a market conduct examination is to review the premium finance company's operating practices to determine if they comply with the applicable provisions of the Florida Insurance Code, rules related to the business of insurance premium financing, the provisions contained within a premium finance contract issued by the Company, or orders issued by OIR. A common element of all market conduct examinations is to evaluate a premium finance company's business practices to promote the protection of insurance-buying consumers and to hold entities regulated by OIR accountable when issues or violations are found.

The examination began April 1, 2023 and ended June 9, 2023. This is the first market conduct examination of the Company.

Examination Procedures

The conduct of this examination and the procedures, statistical sampling and examination processes used were consistent with and in accordance with those standards and procedures contained in the *Market Regulation Handbook* promulgated by the National Association of Insurance Commissioners ("NAIC").

In preparation for the examination, the Company was requested to provide the total number, or universe, of premium finance agreements entered into during the examination's scope period. The Company reported entering into a total of 11 premium finance agreements during the examination scope period.

The NAIC's *Market Regulation Handbook* provides guidance regarding sampling methods utilized during market conduct examinations. A minimum confidence level of 95% is used to make inferences when a universe population is greater than 200 and permits those results to be extrapolated to the population of all premium finance agreements. In this instance, the total universe of premium finance agreements is less than 200. As a result, all 11 premium finance agreements were reviewed and tested for compliance with the Florida Insurance Code.

In reviewing materials for this report, the examiners relied on records and information provided by the Company.

Findings

The examination focused on the Company's use of approved forms and rates and evaluated specific statutory components required by the Company in the execution of premium finance agreements, including but not limited to finance charges, service fees, late and non-sufficient fund fees, and products financed. To determine the Company's adherence to these statutory requirements, the examiners reviewed and analyzed each sampled premium finance agreement to determine if the agreement was executed in compliance with the Florida Insurance Code.

No exceptions were noted.

Conclusion

This market conduct examination of Grove Bay Premium Finance, LLC., was designed to review and evaluate whether the Company's handling of premium finance agreements was in compliance with the provisions of the Florida Insurance Code. This examination report and the observations contained therein are the result of a factual, data-driven analysis of the Company's premium finance agreements.
