Purpose and Scope of the Examination

OIR has primary responsibility for the regulation, compliance and enforcement of statutes related to the business of insurance premium financing and the monitoring of industry markets. OIR is required to examine each premium finance company not less frequently than every three years, pursuant to Section 627.834(2), F.S. Due to this responsibility, OIR conducted a market conduct examination of Granada. The examination scope period was from January 1, 2019, to December 31, 2022. The examination was performed by members of OIR's Property and Casualty Market Regulation business unit.

The purpose of a market conduct examination is to review the premium finance company's operating practices to determine if they comply with the applicable provisions of the Florida Insurance Code, rules related to the business of insurance premium financing, the provisions contained within a premium finance contract issued by the Company, or orders issued by OIR. A common element of all market conduct examinations is to evaluate a premium finance company's business practice to promote the protection of insurance-buying consumers and to hold entities regulated by OIR accountable when issues or violations are found.

The examination began April 3, 2023 and ended August 21, 2023. The last examination of Granada was completed as of December 31, 2018. That examination concluded that the Company's records are in good standing.

Examination Procedures

The conduct of this examination and the procedures, statistical sampling and examination processes used were consistent with and in accordance with those standards and procedures contained in the *Market Regulation Handbook* promulgated by the National Association of Insurance Commissioners (“NAIC”).

In preparation for the examination, the Company was requested to provide the total number, or universe, of premium finance agreements entered into during the examination’s scope period. The Company reported entering into a total of zero premium finance agreements during the examination scope period.

The NAIC’s *Market Regulation Handbook* provides guidance regarding sampling methods utilized during market conduct examinations. A minimum confidence level of 95% is used to make inferences when a universe population is greater than 200 and permits those results to be extrapolated to the population of all premium finance agreements. In this instance, the total universe of premium finance agreements is zero. As a result, no premium finance agreements were reviewed and tested for compliance with the Florida Insurance Code.

In reviewing materials for this report, the examiners relied on records and information provided by the Company.

Findings

The examination focused on the Company’s use of approved forms and rates and evaluated specific statutory components required by the Company in the execution of premium finance agreements, including but not limited to finance charges, service fees, late and non-sufficient fund fees, and products financed. To determine the Company’s adherence to these statutory requirements, the examiners reviewed and analyzed each sampled premium finance agreement to determine if the agreement was executed in compliance with the Florida Insurance Code.

Finding 1: The examiners determined that the last premium finance agreement form in use by the Company prior to ceasing business operations was reviewed and approved by OIR, as required by Section 628.838(1), F.S. However, the form is aged and the Company is required to file updated forms with OIR for approval prior to commencing business operations in the future.

Recommendations

The following recommendations were compiled from the Findings contained within this report, and observations noted during the examination. The Company is to provide a written report to OIR of actions taken on each Recommendation within 60 days of the Company’s receipt of the Final Examination Report.

It is recommended that the Company:

- Ensure that updated forms are filed with OIR for review and approval before writing any new business in the state of Florida.

Conclusion

This market conduct examination of Granada Premium Finance Company was designed to review and evaluate whether the Company's handling of premium finance agreements was in compliance with the provisions of the Florida Insurance Code. During the examination, OIR identified a finding and made a recommendation for remediation to be implemented by the Company.

This examination report and the observations contained therein are the result of a factual, data-driven analysis of the Company's premium finance agreements and practices related to the cancellation and refund of premiums to consumers. This report contains one recommendation for improvement that should be implemented by the Company. It does not document what regulatory or administrative action may be taken by the Office. Any such action taken as a result of this market conduct examination will be the subject of a separate Order issued by OIR.

OIR hereby issues this final report based upon information from the draft report, additional research conducted by OIR, and additional information provided by the Company.
