Subject: 1802 Mitigation Form

Cindy

Here is a comment sent to me by one of our members on the proposed 1802 form.

Comments and Recommendations on new Citizens Mitigation inspection form

The new form that is being proposed will simply make it harder and more expensive for all of our clients, customers and all of us to receive the mitigation credits. We need to make sure that we send in our comments and recommendations on this new form. We really need the OIR/Citizens to carve out Monroe county from this form due to our more stringent building codes that have been in place for quite awhile. Please forward this to all interested parties.

Thanks
