Subject: Re: notice

Ms. Walden,

I will most likely not be able to attend the September 20, 2011 hearing.

I have emailed before about an question I have with the current and proposed Form 1802. It seems reasonable to me to provide pictures, or other acceptable proof of any attribute for which the insurance company is allowing credit.

However, It does not seem reasonable to require pictures of attributes that may not be easily verified, and for which not credit is being allowed.

An example of this is the roof deck attachment. If the roof deck is attached with 6d nails, no credit is given. Therefore, why should we be required to climb all over the attic to take pictures that are never going to serve any purpose?

Please respond. Also, is there any way that I can submit comments and/or questions to be asked at the hearing and also get a transcript of the hearing?

Thanks,

Tom Tillman
