I would like to submit the following comments in regards to 9/20/11 hearing on 1802 Draft.

I agree with the Roof To Wall attachment as it is currently written in the draft. The clip category, which pertains to my service request 1-709062843, is now more clearly defined as to its definition as well as its nailing requirements.

I spoke with Mr. Charles Kelley after you and I discussed the 9/20/11 draft hearing this morning. Mr. Kelley and I both agree that the OIR 1802 wind mitigation form and the discount chart ( For Wind mitigation discounts ) should directly relate to one another and be in agreement with each other. Thus I am suggesting that the OIR 1802 form mentions as well as refers to the applicable discount chart. The referencing of the above would then eliminate most questions that relate to how the OIR 1802 form conforms to and agrees with the discount chart.

Sincerely,
