1. These data are Self-Reported and unaudited as of the date of this report.					
2. This list was composed from property writers reporting data into the Florida QUASRng System for the first quarter 2012.					
3. A no data entry for underwriting results is due to a 100% pooling arrangement the insurer has with its parent company.					
4. Note that the surplus may increase even though there was an underwriting loss due to capital contributions to the company and/or investment income gains.
