To start a CHOICES auto insurance rate comparison search:

The screenshot shows the top navigation bar with links for Home, Rate Tool, and Instructions/FAQs. Below this is a car icon and the title "CHOICES: Auto Rate Comparison Tool". The main content area explains that the cost of auto insurance in Florida varies based on four primary factors: who is covered, type of vehicle, type of coverage, and amount of coverage. It also states that the tool provides sample average rates for three pre-defined examples: senior married couple, single female, and a family with young drivers. The interface includes three numbered steps: 1. Select an Example, 2. Select by County/Company, and 3. View Rates. A note at the bottom mentions that the website contains links to PDF documents and provides a link to download Adobe Acrobat Reader. A disclaimer follows, stating that the information is for illustrative purposes only and does not constitute an endorsement or recommendation of any particular insurance company or plan.

STEP 1: SELECT AN EXAMPLE
