TALLAHASSEE, Fla. – The Florida Office of Insurance Regulation (Office) has released the “2015 Review of Assignment of Benefits Data Call Report”, which provides aggregated results from a data call requiring the participation of the top 25 personal residential insurance companies writing Homeowners (HO-3) and Dwelling Fire policies. Other personal residential property insurance companies also voluntarily participated in the data call.

The overall purpose was to assist in evaluating the impact to Florida's property claims as a result of an assignment of benefits from a policyholder to a third party for water or roof damage repair (i.e. water pipes busting, leaks from appliances, etc.).
