Definitions and Additional Guidance:

Commercial lines residential coverage, per section 627.4025(1), Florida Statutes, "consists of the type of coverage provided by condominium association, cooperative association, apartment building, and similar policies, including policies covering the common elements of a homeowners association."

Litigation is defined as when a lawsuit has been filed and served on an insurer.

Supplemental claim is defined as a claim for additional loss or damage from the same peril which the insurer has previously adjusted or for which costs have been incurred while completing repairs or replacement pursuant to an open claim for which timely notice was previously provided to the insurer.

Reopened claim is a claim that an insurer has previously closed, but that has been reopened upon an insured's request for additional costs for loss or damage previously disclosed to the insurer.

Name of Attorney should be the first attorney listed on the claim.

No deductions for salvage, subrogation or reinsurance received or expected should be made.

Wind only policies should be reported in the corresponding policy form—eg HO, DP or MH.

Responses for the fields "Type of Policy," "County," "Peril," and "Type of Vendor" are limited to the responses shown in the "Valid Responses" worksheet.

There should only be one row per claim on Section A-1, but there may be multiple rows per claim for Sections A-2, A-3, and A-4. For example, if there are multiple vendors on a claim, submit multiple rows of data.
