### General Information

This information has not been reviewed or finalized by the Department of Health & Human Services; therefore, it is subject to change.

Florida file log numbers can be used to search the Office of Insurance Regulation's "IRFS Forms & Rates Filing Search" system.

### Determination of the average change:

1 Companies provided an average requested rate change based on their proposed premiums and their distribution of business. That number is in the table above.

2 The requested rate changes and the projected distribution of business was then used to determine an overall statewide average increase.
