Insurance Commissioner

2010 ANNUAL REPORT

OFFICE OF INSURANCE REGULATION
KEVIN M. McCARTY
COMMISSIONER

FINANCIAL SERVICES
COMMISSION

CHARLIE CRIST
GOVERNOR

ALEX SINK
CHIEF FINANCIAL OFFICER

BILL MCCOLLUM
ATTORNEY GENERAL

CHARLES BRONSON
COMMISSIONER OF
AGRICULTURE

February 2011

Dear Floridians:

I am pleased to submit the 2010 Annual Report of the Florida Office of Insurance Regulation for the 2009 Calendar Year, in compliance with Section 624.315, Florida Statutes.

I am filing this copy simultaneously with the Speaker and Minority Leader of the House of Representatives, the President and Minority Leader of the Senate, the chairs of the legislative committees with jurisdiction over matters of insurance, and the Governor. Anyone with Internet access may also view the report and similar associated information on the Office's website, www.floir.com.

This report contains all of the information the Office is required by statute to publish annually, and each section indicates the specific statutory reference. Please note the Office's website contains a myriad of insurance industry information and links to other insurance related websites. If you have any questions about the contents of this report or the affairs of the Florida Office of Insurance Regulation, please do not hesitate to contact my office.

Sincerely,

Kevin M. McCarty

...

KEVIN M. MCCARTY • COMMISSIONER
200 EAST GAINES STREET • TALLAHASSEE, FLORIDA 32399-0305 • (850) 413-5914 • FAX (850) 488-3334

Office Activities

This section is a brief summary of major activities and accomplishments of the Office of Insurance Regulation during the 2009 Calendar Year.

THE OFFICE OF INSURANCE REGULATION

The Florida Legislature created the Office of Insurance Regulation (Office) in 2003:

“The Office of Insurance Regulation, which shall be responsible for all activities concerning insurers and other risk bearing entities, including licensing, rates, policy forms, market conduct, claims, issuance of certificates of authority, solvency, viatical settlements, premium financing, and administrative supervision, as provided under the insurance code or chapter 636. The head of the Office of Insurance Regulation is the Director of the Office of Insurance Regulation, who may also be known as the Commissioner of Insurance Regulation.”
--Section 20.121(3)(a)1, Florida Statutes

The Insurance Commissioner is appointed by, and reports to, the Financial Services Commission. The Commission is comprised of the Governor, the Attorney General, the Chief Financial Officer, and the Commissioner of Agriculture. The Commission serves as agency head for purposes of rulemaking pursuant to Sections 120.536 and 120.565, Florida Statutes. Commission action is taken by majority vote. The Commissioner of Insurance Regulation is considered the agency head for purposes of final agency action for all areas within the regulatory authority delegated to the Office.

The Office is, for purposes of administrative, personnel, and technology support, housed within the Department of Financial Services (DFS). Office funding is appropriated directly by the Legislature from the Insurance Regulatory Trust Fund, funded by insurance company licensing fees, fines that may be levied for non-compliance with provisions of the Insurance Code, and a portion of premium tax paid by surplus lines carriers transacting insurance in this State.

Vision

The Florida Office of Insurance Regulation envisions a robust and competitive insurance market that provides protection for the Florida insurance-buying public.

Mission Statement

To ensure that insurance companies licensed to do business in Florida are financially viable; operating within the laws and regulations governing the insurance industry; and offering insurance products at fair and adequate rates which do not unfairly discriminate against the buying public.

Insurance Regulation and the Department of Financial Services

The Office's interaction with the insurance regulatory responsibilities assigned to DFS occurs in several instances: Consumer complaints received by the DFS Division of Consumer Services may constitute patterns of company practices in violation of the Insurance Code and are referred to the Office's Market Investigation unit for investigation. In turn, Market Investigation examinations may discover potential fraudulent actions that are referred to and worked with the law enforcement personnel of the DFS Division of Insurance Fraud. In some instances, such investigations involve insurance agents licensed by the DFS Division of Agent and Agency Services and Office staff will work with the DFS to assist in making cases with the Division's Bureau of Agent Investigations. In instances where an insurance company's financial condition has significantly deteriorated to the point of insolvency, the Office may refer a company to the DFS Division of Rehabilitation and Liquidation.

Administrative Overview

As previously noted, the Office is administratively housed within DFS. In statute, that relationship is expressed in this excerpt of Section 20.121, Florida Statutes, emphasis provided:

Section 20.121 Department of Financial Services.—

(3) **FINANCIAL SERVICES COMMISSION.**--Effective January 7, 2003, there is created within the Department of Financial Services the Financial Services Commission, composed of the Governor, the Attorney General, the Chief Financial Officer, and the Commissioner of Agriculture, which shall for purposes of this section be referred to as the commission. Commission members shall serve as agency head of the Financial Services Commission. **The commission shall be a separate budget entity and shall be exempt from the provisions of Section 20.052, Florida Statutes.** Commission action shall be by majority vote consisting of at least three affirmative votes. **The commission shall not be subject to control, supervision, or direction by the Department of Financial Services in any manner, including purchasing, transactions involving real or personal property, personnel, or budgetary matters.**

(e) *Administrative support.*--The offices shall have a sufficient number of attorneys, examiners, investigators, other professional personnel to carry out their responsibilities and administrative personnel as determined annually in the appropriations process. **The Department of Financial Services shall provide administrative and information systems support to the offices.**

Pursuant to this provision, the Office develops and presents its budget requests directly to the Executive Office of the Governor and the Florida Legislature. The Office has developed performance measures and standards to assess the performance of its activities in support of its budget requests.

With respect to the Office's interaction with DFS in matters involving administrative support, the Office has inherited the responsibility to directly manage its personnel matters - i.e., to recruit, advertise, and hire personnel -- subject to DFS personnel office review for compliance with required state agency hiring and personnel policies and procedures.

With respect to the Office's interaction with DFS in matters involving information systems support, the Office seeks independent and project-specific appropriations for technology initiatives and upgrades. The Office has direct liaison with DFS technology support staff; and it is the DFS Division of Information Systems that provides the Office with standard desktop, network, and programming assistance for integrated computer systems in use by both the Office and DFS.

Legislative Achievements

Property Insurance Reform - 2009

The 2009 Florida Legislature enacted property insurance reform legislation that made wide-ranging changes to the regulation of property insurance, including:

HB 1495

Citizens Property Insurance Corporation ("Citizens")

- Implements a rate "glide path" capped at 10 percent per year for Citizens' policyholders until rates are actuarially sound. This provision will go into effect on or after January 1, 2010. The incremental rate increase was a recommendation of the Citizens Mission Review Task Force.
- Allows Citizens to increase its rates to pay the Florida Hurricane Catastrophe Fund's (FHCF) cash build up program for five years.
- Staggers the terms of office for members of the Board of Governors. Insurers may offer ex-wind policies to homeowners within the boundaries of the HRA (high risk account) area who are no longer eligible for coverage by Citizens because the replacement value of the home exceeds \$2 million or because the replacement value of the home exceeds \$750,000, but the home does not have hurricane shutters.

- Deletes the provision that required on January 1, 2010, a seller of a home which is insured by Citizens and located in the wind-borne debris region, with an insured value of \$500,000 or more, to disclose in writing to the prospective purchaser its windstorm mitigation rating based on the uniform home grading scale, prior to sale.
- Extends from February 1, 2010 to December 1, 2010, the requirement that Citizens reduce its HRA area boundaries in order to lower its 100-year probable maximum loss.

Florida Hurricane Catastrophe Fund

- Implements provisions to reduce the FHCF's exposure and increase its cash reserves. Phases out the Temporary Increase in Coverage Limit (TICL) layer of coverage over a six-year period at a rate of \$2 billion per year.
- Increases the price of the TICL layer by an additional multiple each year until TICL is eliminated in six years.
- Authorizes the Fund to implement a "cash build up" factor which would increase the reimbursement premiums that the Fund charges property insurers for the mandatory layer of coverage provided by the Fund. The cash build up factor is based on a five percent annual increase which will be phased in over a five-year period, at which time the increase will be 25 percent.
- Allows small insurers to continue to purchase an additional amount of FHCF reimbursement coverage up to \$10 million until December 31, 2011.
- Establishes the contract period for the Fund to be the calendar year (January through December). Previously the contract year began on June 1.

My Safe Florida Homes Program ("MSFH")

- Adds mitigation improvements relating to roof hardening to help facilitate the MSFH program to access federal "weatherization" stimulus money and FEMA grant money.
- Clarifies that the MSFH program should provide grants rather than participate in a no-interest loan program.
- Authorizes the Department of Financial Services to adopt by rule the maximum grant allowances for mitigation improvements.
- Revises the threshold for grant and contract review by the Legislative Budget Commission.

Insurance Rate Filings

- Allows insurers to make a separate expedited rate filing limited solely to an adjustment of its rates for reinsurance or financing costs relating to the purchase of reinsurance or financing products to replace or finance the payment of the amount covered by the Fund's TICL layer, including replacement reinsurance for the TICL reductions, as well as the cash build up factor and the increase in the price for the remaining TICL layers.
- Mandates all costs contained in this filing are capped at 10 percent per policyholder; however, financing products such as a liquidity instrument or line of credit may not result in an overall premium increase exceeding three percent.
- Provides that insurers purchasing this reinsurance do so at a price no higher than would be paid in an "arms-length" transaction.
- Provides an insurer may make only one filing under this provision in any 12-month period.
- Prohibits "use and file" rate filings until December 31, 2010.

Public Adjusters

- Prohibits public adjusters, public adjuster apprentices and persons acting on behalf of public adjusters or apprentices from accepting referrals of business from any person with whom the public adjuster conducts business.
- Prohibits a public adjuster from compensating any person, except for another public adjuster, for the purpose of referring business to the public adjuster.
- Requires an applicant for a public adjuster apprentice license to pass a written examination prior to licensure and receive a specified designation.
- Limits the number of public adjuster apprentices that are maintained by public adjusting firms.
- Requires OPPAGA to review the claims practices and laws relating to public adjusters and submit a report to the Governor, President of the Senate, Speaker of the House of Representatives, the CFO, and the Insurance Commissioner by February 1, 2010.

Other Provisions

- Authorizes the Florida Hurricane Loss Projection Methodology Commission to study and issue a report on mitigation credits, discounts and deductibles.
- Provides that premium discounts resulting from the home grading scale (due in 2011 from the Office) will supersede the current mitigation discounts approved by the Office.
- Authorizes reinsurers to issue coverage directly to a self-insuring public housing authority.
- Allows an insurer to repair damaged property in compliance with its policy.
- Allows insurance agents to explain the applicability of Florida Insurance Guaranty Association to consumers.
- Repeals the statute that prevents Office attorneys from asserting attorney-client privilege or work-product confidentiality on certain communications with other Office personnel.
- Changes recoupment by insurers for Citizens assessments, eliminating the need to receive prior OIR approval before recouping costs from policyholders. Instead, the Office would review the final accounting report of the recoupment after it has been completed.

For complete and detailed summary of the 2009 legislation, visit [2009 OIR Legislative Summary](#).

Life & Health Insurance Reform – 2009

The 2009 Florida Legislature enacted other pieces of legislation, directly related to life and health insurance issues that will benefit Florida's consumers and enhance the insurance market:

HB 0185: Access to Health Care

- Adds a representative from the dental community to the Florida Healthy Kids Corporation board of directors. The member will be appointed by the Governor from three candidates who are nominated by the Florida Dental Association.
- Creates two new provider contract prohibitions for prepaid limited health service organization (PLHSO) contracts entered into on or after July 1, 2009:
 - Contracts between a PLHSO and a provider of limited health services may not contain provisions that prohibit or restrict the provider from contracting with other PLHSOs.

- Prohibits PLHSOs from requiring providers to accept the terms of other health care practitioner contracts with the PLHSO, as a condition of contract continuation or renewal.
- Authorizes health care practitioners to meet their service obligations over the biennial licensure period, rather than annually, in order to be eligible for the benefits available to health care providers who volunteer their services under the Access to Health Care Act.
- Allows practitioners who volunteer 160 hours of service over two years and provide the necessary documentation to the Department of Health are eligible for a waiver of their biennial licensure renewal fee and credit for up to 25 percent of their continuing education credits.
- Requires retired health care practitioners must volunteer 800 hours over the biennium.

HB 0675: Medicare Supplement Policies

- Requires insurers that provide Medicare supplement policies (Medigap) to issue such policies on a guaranteed-issue basis to persons in Florida who meet the following criteria:
 - People under 65 years of age and eligible for Medicare due to a disability determination or diagnosis of end-stage renal disease.
 - Qualified Medicare beneficiaries must be enrolled in Medicare Part B and must purchase Medigap coverage within six months after initial Medicare eligibility or within two months following termination of coverage under a group health insurance policy.
- Allows Medigap insurers that already offer coverage to Medicare beneficiaries under the age of 65 a process to make a one-time rate schedule change without activating the five-year lockout period required in Section 627.410(6)(e)2., Florida Statutes.
- Allows insurers to address concerns in the premium relativities between the premium class, which includes the under age 65 and the balance of the block, by redefining the age bands of the premium classes.
- Allows an insurer to address problems in the premium relativities between the premium class, which includes the under age 65 individual, and the balance of the block, in the first rate filing in 2012, thus allowing a company to consider the experience data for the premium class, including the under age 65 individuals, on a much more credible basis than the current rules authorize.

SB 1122: Health Insurance/Payment of Benefits/Claims Forms

- Requires insurers to make payments directly to any provider not under contract with the insurer if the insured makes a written assignment of benefits. Under current law, direct payment by an insurer is only required for emergency services and care.
- Provides that the Office of Program Policy Analysis and Government Accountability is to complete a report to the President of the Senate and the Speaker of the House by March 1, 2012, and if that report finds that the act has caused a net loss in physicians in the preferred provider plan network of the state group health plan, the provisions of the act will be repealed.

For complete and detailed summary of the 2009 legislation, visit [2009 OIR Legislative Summary](#).

Technology Initiatives

Oracle 10G upgrade

In November 2009, the Department of Financial Services/Division of Information Services (DFS/DIS), the Office's internal technology support resource, deployed a significant upgrade of a nearly 10-

year old relational database management system called Oracle 8i (launched by Oracle in 1999) to Oracle 10g (launched by Oracle in 2007).

This upgrade affected the majority of the Office's systems. Over a three-month period, all systems' technical code was frozen and only well documented emergency deployments were executed. Once the upgrade from Oracle 8i to 10g was in effect, the Office's technology and business unit staff tested the impacted systems to ensure they were operating properly.

QUASRng Goes Live for Insurance Company Filings in April 2009 (1st Quarter Reporting)

In 2008, the Office launched the newest revision of the Quarterly and Supplemental Reporting System (QUASR) -- the Quarterly and Supplemental Reporting System Next Generation (QUASRng). First established in 1996, the original purpose of QUASR was to help the Office monitor the state moratorium prohibiting insurers from cancelling or non-renewing personal and commercial residential policies subsequent to Hurricane Andrew in 1992.

Since its inception, QUASRng has been instrumental in assisting the Office in analyzing the Florida insurance marketplace by providing market share data from companies writing personal and commercial residential policies and in assisting the Office in monitoring the influence of the residual market.

To facilitate a smooth transition from QUASR to QUASRng, training sessions were scheduled to educate the users on the new system. There are approximately 600 required insurance company filers for QUASRng. In April 2009, companies began to submit filings to QUASRng for the first quarterly reporting.

Quarterly and Supplemental Reporting System Next Generation

The Office launched a new public QUASRng Web site (<http://www.florid.com/PCResPolicyData.aspx>) that includes prepared reports by Policies in Force, Structure Exposure, Premiums Written, Non-renewed Policies, Canceled Policies and New Policies Written. A comprehensive database is also available to the public to directly query QUASRng statistical data for Florida's personal and commercial residential marketplace.

Disaster Recovery Testing for QUASRng and Data Collection Modules

In 2009, the Office conducted disaster recovery testing on two new systems it recently implemented to prepare for recovery or continuation of the technology infrastructure critical to business operations after a system failure related to a natural or man-made disaster. The DFS/DIS and external technical contractors were partners in this initiative. The systems tested included: QUASRng (the aforementioned system) and the Data Collection and Analysis Modules (DCAM) system, which is housed within the Office's I-Portal (an Internet based access point for companies to electronically submit required filings). DCAM administers both ad hoc and standardized data collection events including, but not limited to, informational documents, surveys, questionnaires and numeric data. Both systems are now postured for recovery should the event arise.

Portable Document Format (PDF) Solutions Project

The Office determined it was necessary to upgrade its document imaging process within the Electronic Document Management System (EDMS) to a more universal product. Established in 2002, EDMS was designed to transition the Office to a "paperless" work environment by allowing insurance companies to efficiently complete form and rate filings electronically. EDMS captures company filings and provides a workflow process for business unit staff involved in form and rate reviews.

The Portable Document Format (PDF) Solutions Project replaced the Tagged Image File Format (TIFF) of stamping cover letters, final approved forms, withdrawal letters, etc. within EDMS. Stamping is the electronic equivalent of the ink pad stamp (e.g., the received on date - month/date/year). Prior to implementation of the PDF Solutions Project, the business units were accepting electronic documents from insurance companies in many formats (HTM, HTML, PDF, TXT,

DOC, XLS, TIF, TIFF, and RTF). Now the only documents an insurance company can upload to fulfill filing requirements are: PDF, DOC, XLS, TXT and RTF.

The project required the Office to purchase two new servers that are dedicated to this effort, which will reduce maintenance time and costs. Newly developed tools give administrators the ability to monitor application and server activity, make configuration setting changes quickly and manage conversion (accepting documents that are not filed in the normal size - 8.5 x 11 and converting them to the standard format), stamping and general document and filing requests. It also generates record and filing requests more quickly reducing the hours required to retrieve and prepare documents for customers.

Systems Overview

The Market Research and Technology Business Unit developed its first Systems Overview, which outlines critical Office technology systems that reside on the DFS/DIS infrastructure. Until its completion, the DFS/DIS only maintained a brief spreadsheet of systems that was regularly circulated to the Office to review and update. In an effort to enhance this spreadsheet, the Office created the Systems Overview to provide additional details about the systems (e.g., brief summary, implementation date, statutory reference, appropriation, reporting entities, forms, etc.). It serves as an historical resource and a living document for the Office and the DFS/DIS.

Market Research/Data Collection Procedures Manual

The Market Research Business Unit (MRU) created its first-ever comprehensive procedures manual in 2009. Previously, the MRU lacked extensive written procedures governing the unit's data collections and business processes. The unit now boasts a multi-layered document outlining, in detail, each data collection, business unit contacts, substantive summaries, statutory requirements, promulgated forms, timelines and staff responsibilities.

Florida's National Leadership Role

Florida serves on national policy-setting boards, councils and work groups via the National Association of Insurance Commissioners and the National Conference of Insurance Legislators.

The National Association of Insurance Commissioners (NAIC)

The National Association of Insurance Commissioners (NAIC) is the organization of insurance regulators from the 50 states, the District of Columbia and the five U.S. territories. The NAIC provides a forum for the development of uniform insurance regulatory policy, when uniformity is appropriate.

State insurance regulators created the NAIC in 1871 to address the need to coordinate regulation of multi-state insurers. The first major step in that process was the development of uniform financial reporting by insurance companies.

Since then, new legislative concepts, new levels of expertise in data collection and delivery, and a commitment to even greater technological capability have moved the NAIC forward into its role as a multidimensional, regulatory support organization.

With offices in Kansas City, Missouri, New York and Washington, D.C., the NAIC staff provides invaluable support and information to insurance regulators, companies and consumers.

The mission of the NAIC is to assist state insurance regulators, individually and collectively, in serving the public interest and achieving insurance regulatory goals in a responsive, efficient and cost effective manner, consistent with the wishes of its members.

Florida and the NAIC

Florida has exercised leadership within the NAIC by serving as Chair or Vice Chair of significant standing committees and continues to be actively involved in several key committees of the NAIC.

At the Winter National Meeting in December 2008, Commissioner McCarty was elected by his peers to become the NAIC's secretary-treasurer for 2009.

National Conference of Insurance Legislators (NCOIL)

The National Conference of Insurance Legislators (NCOIL) is an organization of state legislators whose main area of public policy concern is insurance legislation and regulation. Many legislators active in NCOIL either chair or are members of the committees responsible for insurance legislation in their respective state houses across the country.

NCOIL's primary goals are to:

- Educate state legislators on current and perennial insurance issues;
- Help state legislators from different states interface effectively with each other;
- Improve the quality of insurance regulation;
- Assert the prerogative of legislators in making state policy when it comes to insurance; and
- Speak on Congressional initiatives that attempt to encroach upon state primacy in overseeing insurance.

Florida and NCOIL

Office staff participates in and attends NCOIL committee meetings, special subcommittee meetings, roundtable discussions, and general sessions. Due to budgetary constraints, the Office limits its participation in NCOIL activities.

Business Units of the Office of Insurance Regulation

All business units and functions within the Office of Insurance Regulation are divided into one of two program areas also known as budget entities: Executive Direction and Support and Compliance and Enforcement.

Executive Direction and Support provides overall direction in carrying out the Office's statutory and administrative responsibilities. Executive Direction and Support includes the Commissioner's Office, Office of the General Counsel/Legal Services and the Office of the Inspector General.

The remaining areas of the Office fall under the Compliance and Enforcement program area. This service protects the public through regulatory oversight of company solvency, policy forms and rates and market investigations performance.

Office of the Commissioner

Commissioner of Insurance Regulation

The Commissioner of Florida's Office of Insurance Regulation provides the Office's policy and executive leadership. The Commissioner is the agency head for purposes of final agency action for all areas within the regulatory authority delegated to the Office in Florida Statutes.

The Commissioner serves as a member of the NAIC. Participation at the NAIC affords the Office the opportunity to take part in resolving major insurance issues and contribute to the development of national policies.

Office of Chief Economist

Reporting directly to the Commissioner, the Office of Chief Economist is charged with the responsibility to research the economic impact associated with emerging regulatory issues, to produce the annual Workers' Compensation and Medical Malpractice Market Reports, and to provide the Office with the ability to produce complex data-driven analyses of the Florida insurance markets.

Office of Inspector General

The Office of Inspector General is the central point within the Office for coordination of and responsibility for activities that promote accountability, integrity, effectiveness, efficiency and cost-effectiveness of the Office's operations and administration. This is accomplished by:

- Conducting internal audits, investigations, performance measure assessments, rule reviews, management reviews and other accountability activities, in accordance with professional standards and applicable federal and state laws and rules.
- Providing business and technical consultation services to Office management.
- Ensuring effective coordination and cooperation between the Office and the Auditor General, other external auditors and governmental bodies.

Office of General Counsel and Legal Services

The Office of General Counsel and Legal Services provides legal counsel to the Commissioner of Insurance Regulation, represents the Office in judicial, administrative and rule-making proceedings, provides legal assistance, coordination and oversight to the Market Investigations Business Unit.

The Legal Services Unit is organized into two principal legal sections:

Regulatory Actions Section

- Provides legal counsel to the Commissioner and staff on all matters related to the regulation of insurers.
- Responds to requests for legal opinions from inside and outside the Office.
- Advises the Commissioner and Office staff on a daily basis on all legal matters.
- Assists in the development and analysis of new legislation and rules.
- Assists Office staff in the preparation of complex contracts and agreements concerning financial and market conduct examinations of insurers.
- Reviews and provides analysis of the legal sufficiency of admissions applications and other company documents.
- Provides assistance to the Legislative Affairs Office in the development of and interpretation of proposed legislation.

Litigation Section

- Handles all litigation, including judicial proceedings, in state and federal courts, administrative proceedings before the Division of Administrative Hearings, and appeals before the Florida Supreme Court and District Courts of this State as well as cases from the Subscriber Assistance Panel (HMO appeals) referred to the Office by the Agency for Health Care Administration.
- Responds to public information requests and handles related litigation, including injunction hearings on alleged trade secret documents.
- Provides advice and litigation support in personnel matters and for challenges to Office rules.
- Provides advice as requested regarding the Office's review of insurers' annual rate filings required by the Insurance Code, including assistance with public rate hearings and defending Office actions regarding those filings if challenged.

Market Investigations

Market Investigations is the enforcement and compliance unit for the Office. It monitors the activities of authorized Life and Health and Property and Casualty insurers within the Florida insurance marketplace to assure proper compliance with the Florida Insurance Code. Market Investigations also investigates and initiates regulatory enforcement actions against unauthorized entities that illegally transact insurance business in Florida or with Florida consumers.

When adverse business practices are identified relative to specific companies, markets or insurance products, companies are reviewed for compliance through a multitude of possible regulatory responses. Responses could include contacting the insurers for a response to the identified issue, desk investigations or on-site field examinations.

Over the last few years, Market Investigations has incorporated a targeted approach to market conduct reviews. Industry problems are identified through market analysis by trending patterns and practices of consumer complaints, financial data and other data available through market and environmental sources.

Targeted industry compliance reviews may also be conducted as a result of legislative changes to the Florida Insurance Code to determine if insurers are complying with those changes. These regulatory responses enable Market Investigations to work with the company to efficiently resolve any problems identified in the review.

The Market Investigations unit participates with other states in NAIC multi-state reviews. Multi-state reviews allow regulators to work together to resolve similar problems and address issues through uniformity and collaborative actions to the benefit of consumers in numerous states.

Business Unit Organization

Market Investigations is organized into the following sections:

- Property and Casualty
- Life and Health/Managed Care
- Special Investigations Unit

The fundamental charge of these sections is to assure compliance with governing statutes and rules and to monitor how the industry interacts with the citizens of Florida. Market Investigations has the authority to conduct investigations and examinations of insurers and to assess administrative penalties, direct corrective action and restitution, and mandate conduct that protects the insurance consumer from unlawful or harmful business practices. Special Investigations Unit activities include investigations of unauthorized insurers.

Market Analysis

The primary responsibility of this section is to analyze current and historical market and financial data and trends to determine if any anomalies exist that may indicate an unlawful or harmful business practice or pattern exists.

Unit Stats

In 2009, the unit closed 91 examinations and 1095 investigations. Life and Health examinations included compliance reviews of health data reporting; findings included violations by insurers of the statutes and rules established pursuant to Florida's Freedom to Travel Act. Property and Casualty examinations included reviews of consumer complaint handling; findings included claims and underwriting violations.

Investigations included reviews of companies not timely filing data reports with the Office and unauthorized insurance activities.

Pursuant to Section 624.315(c), Florida Statutes, specific findings as to Market Investigations' examination and enforcement efforts can be found at http://www.flor.com/market_conduct/is_market_conduct_index.aspx.

Office of the Chief of Staff

Chief of Staff

The Office of Chief of Staff is the senior executive management unit of the Office of Insurance Regulation. The Chief of Staff provides leadership, administrative direction and policy advice to the units within the Office; manages the fiscal resources and personnel to maximize the delivery of services and technical assistance; and advises the Commissioner, Governor, Cabinet and Legislature on policies relating to the regulation of insurance.

The Office of Chief of Staff is responsible for the coordination and completion of a series of required executive actions, including:

- Submitting the Office's annual legislative budget requests;
- Serving as the chair of the Technology Steering Committee, which conducts bi-weekly meetings to identify, prioritize and oversee system technology plans and projects;
- Coordinating and approving Office personnel actions;
- Serving as the agency's safety coordinator;
- Serving as the agency's disaster coordinator;
- Serving as the agency's personnel and purchasing liaison contact for matters involving the Department of Financial Services; and
- Coordinating informational memoranda releases.

The Chief of Staff directly supervises the Communications Office, Government Relations Office, the Deputy Chief of Staff, NAIC activities and the budget and contracts and personnel managers of the Office.

Communications Office

The Communications Office represents the Office to the news media of Florida, the nation and the world. The Communications Office serves as the primary contact with news media, and the significant responsibilities include:

- Researching, writing, editing and distributing Office press releases;
- Coordinating interviews with news media, the commissioner and senior management;
- Responding to public or media requests for information;
- Continuously updating the Office's Web site content; and
- Coordinating internal communications to assure the media and interested parties have access to the most current information and expertise available to better understand complex insurance regulatory issues and actions.

Government Affairs Office

The Government Affairs Office consists of a Cabinet Affairs Office and Legislative Affairs Office and is responsible for the development, coordination, and communication of legislative priorities and rulemaking.

The Legislative and Cabinet Affairs Offices are responsible for establishing and maintaining contacts on legislative matters within the Executive Office of the Governor, the Florida Legislature, and other local, state, and federal entities. Among its responsibilities:

- Response and communication to legislative members and staff matters affecting policy and administration of Office insurance programs and activities.
- General oversight of legislative activities involving Office business units.
- Administration of pre-legislative activity that includes:
 - Coordination of interim meetings with legislators;
 - Coordination of interim legislative projects;
 - Gathering, where appropriate, input from industry representatives and other interested parties related to potential legislative initiatives;
 - Coordination of drafts for proposed bills and bill amendments;
 - Solicitation of legislative sponsorship for regulatory initiatives; and
 - Providing briefing materials for Financial Services Commission/Legislative Directors of interested or affected executive and Cabinet agencies.
- Representation of the Office during Legislative Session that includes:
 - Meeting with and providing information to legislators on matters that affect the regulation of the insurance industry.
 - Managing legislative calendars and required committee appearances.
 - Monitoring and prioritizing of legislation affecting the Office.
 - Coordinating bill analyses provided to legislative members and staff.
 - Appearing before legislative committees, as required.
 - Coordinating responses to legislative information requests.
- Coordination of post-session activities that include:
 - Publication/distribution of post-session legislative summaries and reports.
 - Implementation of policies, procedures and programs that assure the accurate and timely implementation of legislation.
 - Management of Office responses to constituent requests from legislative offices and committee staff.
 - Management of the Office's internal program to assure timely implementation of legislative mandates; to assure appropriate rules are developed and implemented; and ensure that the impact of new legislation

is communicated effectively within the Office and its regulated entities.

The primary role of the Cabinet Affairs Office is to facilitate communication and respond to matters affecting Office oversight by the Financial Services Commission. The Cabinet Liaison works with and is an active part of the Governmental Relations Office. Unique responsibility assigned to Cabinet Affairs includes:

- Interaction with the Financial Services Commission -- providing information regarding proposed rules, board recommendations, legislation and other matters affecting the Office.
- Coordination and presentation to Cabinet Aide briefings on matters affecting the Office.
- Coordination of appointments and recommendations for boards and commissions.

Deputy Chief of Staff

The Deputy Chief of Staff directly supervises and provides direction and support to the business development, market research and technology units. The Deputy Chief of Staff supports the Chief of Staff with personnel and budgetary matters, and directly supervises the Cabinet Affairs liaison.

Business Development/Company Admissions

The Company Admissions Unit is responsible for the receipt and initial review of all company applications for the sale of insurance and insurance-related products regulated by the Office, including applications for material changes in ownership and issues letters of approval, eligibility, registration, licenses and certificates of authority accordingly. The section also coordinates background and fingerprint investigations of the Officers and Directors of the companies seeking authority to operate in Florida's insurance market.

Unit Stats

In 2009, the Office received a total of 443 insurance company and related entity applications and during the same time period, processed 451 in an average of 45 days. These applications were approved, denied, withdrawn or deemed incomplete. The applications section also completed 967 investigations of Officers and Directors in an average of 77 days.

In 2009, the Office approved 147 new insurance companies and insurance related companies for operation in Florida. These included, but were not limited to, property and casualty insurers, title insurers, life and health insurers and premium finance companies.

Market Research & Technology Unit

The Market Research & Technology Unit serves as the data clearinghouse for the collection and dissemination of public insurance industry data. This unit is comprised of two areas that support the OIR in the oversight and development of Florida's insurance markets.

The primary purpose of the Market Research Unit is to ensure efficiency and transparency in the collection and validation of data that is collected from regulated entities. This section provides the data to satisfy public record requests, legislatively mandated reports and internal business unit requests.

The Technology Unit's primary role is to support OIR in the day-to-day maintenance and development of computer applications. This unit works very closely with technical staff augmentation vendors and with the Department of Financial Services/Division of Information Systems to meet the needs of internal and external users by ensuring that systems are functioning properly.

Office of Deputy Commissioner, Property and Casualty Insurers

The Deputy Commissioner of Property and Casualty Insurers provides direction and support for the business units regulating statutory compliance and monitoring of property and casualty industry markets. In addition, the Deputy Commissioner handles residual market issues including Citizens Property Insurance Corporation, Florida Hurricane Catastrophe Fund assessments, certain data calls, boards and committees.

The Deputy Commissioner for Property and Casualty Insurance provides leadership, administrative direction, and advises the Commissioner and the Legislature upon request on policies relating to the regulation of insurance.

Business Units

The Deputy Commissioner directly supervises the Property and Casualty Product Review and Property and Casualty Financial Oversight business units.

Business Unit Directors

Oversee the daily regulatory activity of the unit and manage the personnel and budget assigned to the unit. The Director is also charged with the responsibility to manage the implementation of legislation, and to represent the Office in local, state, and national forums.

Property and Casualty Product Review

Property and Casualty Product Review is responsible for the review and approval of policy forms, policy rates, policy rules and underwriting guidelines for property and casualty insurance products marketed in this state.

The unit must comply with specific statutory timelines for the review of each type of filing received. The statutory timelines range from 15 days for certain types of recoupment filings to 90 days for certain types of rate filings.

Property and Casualty Product Review is organized into two principal sections:

Rates Section

- Responsible for conducting a timely review of each rate or rule filing submitted to ensure filings comply with actuarial standards and with standards specified in law and rule; and,
- Responsible for the oversight and compliance requirements for the reporting of excess profits of private passenger automobile and workers' compensation insurance.

Forms Section

- Responsible for conducting a timely review of each form filing submitted to ensure filings comply with the requirements specified in law and rule.

Unit Stats

In 2009, the Unit processed a total of 10,191 rate and form filings.

Property and Casualty Financial Oversight

Property and Casualty Financial Oversight is responsible for monitoring the financial condition of property and casualty, title insurers and self-insurance funds through the review of applications, ongoing financial analysis, periodic financial examinations and appropriate regulatory action.

The unit is also responsible for the review of material changes of ownership of insurers domiciled in Florida. The unit conducts actuarial reviews to assure companies maintain adequate reserves and performs field examinations and analyses of financial statements and reports. The unit conducts desk reviews, on-site financial examinations and targeted reviews in the event there are changes or potential changes to a company's financial condition.

As part of the Office's involvement with the National Association of Insurance Commissioners, the financial surveillance areas participate in the Financial Regulation Standards and Accreditation Program. The objective of the accreditation program is to provide consistent solvency regulation of multi-state insurance companies with an emphasis on developing minimum solvency law and regulation standards, effective and efficient financial analysis and examination processes, and appropriate organizational and personnel practices.

Property and Casualty Financial Oversight is organized into four principal sections:

Applications Section

- Reviews applications for material changes in ownership of insurers as well as applications for new insurers requesting to conduct or expand business in Florida.

Examinations Section

- Responsible for periodic on-site financial examinations, including NAIC coordinated, multi-state exams of larger entities.

Analysis Section

- Responsible for the receipt and review of financial statements, submitted by insurers at least four times per year, holding company registration statements, and other requested documents related to the financial solvency of a regulated insurer.

Unit Stats

In 2009, the Unit completed 70 financial examinations and 4,506 financial statement reviews and analyses. As of December 31, 2009, there were 1,455 licensed or otherwise regulated Property and Casualty entities.

Office of Deputy Commissioner, Life and Health Insurers/Specialty Insurers

The Deputy Commissioner of Insurance Regulation of Life and Health Insurers provides direction and support for the business units regulating statutory compliance and monitoring of life and health industry markets.

The Deputy Commissioner for Life and Health Insurers provides leadership, administrative direction, and policy advice to the regulatory business units; manages fiscal resources and personnel; and advises the Commissioner and the Legislature on policies relating to the regulation of insurance.

Business Units

The Deputy Commissioner directly supervises the Life and Health Product Review, Life and Health Financial Oversight and Specialty Product Administration business units.

Business Unit Directors

Oversee the daily regulatory activity of the unit and manages the personnel and budget matters affecting the unit. The Directors are also charged with the responsibility to manage the development and implementation of legislation, and to represent the Office, the Commissioner or the Deputy in local, state, and national forums.

Life and Health Product Review

Life and Health Product Review is responsible for the review and approval of policy form and rate filings received from life and health insurance companies, health maintenance organizations, discount medical plans, and related entities and products.

Health insurance includes, but is not limited to, indemnity and preferred provider organization major medical policies, managed care policies, Medicare Supplement policies, long-term care policies, limited benefit, disability income and catastrophic illness indemnity insurance. Health Maintenance Organizations, Prepaid Health Clinics, Continuing Care Retirement Community plans, Health Flex plans, Prepaid Limited Health plans, and

Discount Medical Plan filings are included in the health category. The unit is also responsible for the actuarial review of rates for all products except large group (51 or more) and out-of-state group major medical insurance, to ensure premiums are reasonable in relation to benefits as required by law.

Life insurance includes: term life, whole life, universal life, variable life and variable annuities. Credit life, credit disability and viatical filings are also included in the life category.

The business unit received policy and rate filings from 855 carriers licensed to sell life and health products, including companies that are active in the Florida small group market.

Life and Health Product Review is organized into two principal sections:

Rates Section

- Performs actuarial reviews of rate filings to ensure compliance; and
- Makes actuarial recommendations regarding approval or disapproval of each rate filing submitted.

Forms Section

- Responsible for enforcing compliance with statutes and rules governing insurance policy contract forms, applications, endorsements or other forms associated life and health insurance products.

Unit Stats

In 2009, the Unit reviewed 8,304 rate and form filings.

Life and Health Financial Oversight

Life and Health Financial Oversight monitors the financial solvency of life and health insurers and managed care health entities licensed to do business in the State of Florida.

The unit is responsible for the review and approval of material changes of ownership of insurers or managed care health entities domiciled in Florida. The unit also administers the admissions process for new life and health entities as well as those proposing to expand into additional lines of business.

Entities subject to the unit's regulatory oversight include Life and Health insurers, fraternal benefit societies, health maintenance organizations, pre-paid limited health service organizations, pre-paid health clinics, multiple employer welfare arrangements, fiscal intermediary service organizations, discount medical plan organizations, as well as Healthflex entities that are either licensed, authorized or otherwise approved to operate in the State of Florida.

The unit conducts actuarial reviews to ensure companies maintain adequate reserves and performs field examinations and analyses of financial statements and reports. The unit conducts desk reviews, on-site financial examinations and targeted reviews in the event there are changes or potential changes to a company's financial condition.

As part of the Office's involvement with the NAIC, the financial surveillance areas participate in the Financial Regulation Standards and Accreditation Program. The objective of the accreditation program is to provide consistent solvency regulation of multi-state insurance companies with an emphasis on developing solvency laws and regulatory standards, effective and efficient financial analysis and examination processes, and appropriate organizational and personnel practices.

Life and Health Financial Oversight is organized into four principal sections:

Life and Health Insurer Financial Analysis Section

- Responsible for monitoring the financial condition of all authorized life and health insurers and fraternal benefit societies;
- Performs financial monitoring via the review of periodically filed financial statements to ensure continued compliance with applicable financial statutes and rules as well as to identify signs of financial deterioration;
- Responsible for reviewing applications for new domestic insurer certificates of authority, foreign insurer certificates of authority, requests to add lines-of-business, and reorganization, merger and acquisition filings.

Managed Care Financial Analysis Section

- Responsible for monitoring the financial condition of all health maintenance organizations, pre-paid limited health service organizations, pre-paid health clinics, multiple employer welfare arrangements, fiscal intermediary service organizations as well as Healthflex entities;
- Performs financial monitoring via the review of periodically filed financial statements to ensure continued compliance with all applicable financial statutes and rules as well as to identify signs of deteriorating financial condition; and
- Responsible for reviewing applications for new domestic entities, reorganizations, mergers and acquisitions.

Actuarial Analysis Section

- Responsible for assisting the analysis and examination units on actuarial related items for all life and health insurers, health maintenance organizations, pre-paid limited health service organizations, pre-paid health clinics, multiple employer welfare arrangements, as well as Healthflex entities;
- Conducts actuarial analysis and examinations both at the Office and on-site at the offices of the regulated entity; and
- Participates with the review of actuarial related items regarding applications for new domestic entities.

Examination Section

- Responsible for periodic on-site financial examinations.

Unit Stats

In 2009, the Unit completed 14 financial examinations and 2,764 financial statement reviews and analyses. As of December 31, 2009, there were 850 licensed or otherwise regulated Life and Health entities.

Specialty Product Administration

Specialty Product Administration provides regulatory oversight of, and is responsible for, a variety of insurance-related industries, including insurance administrators, continuing care retirement communities, motor vehicle service agreement companies, home warranty associations, service warranty associations, service warranty manufacturers, premium finance companies, donor annuities, legal expense insurance corporations, viatical settlement providers, and life expectancy providers.

The primary responsibilities of the unit are to license, examine, and monitor the solvency and market conduct of regulated entities and to protect policyholders from insolvency risks and unethical business practices.

The unit reviews the financial statement filings of the specified specialty insurers licensed to operate in Florida. The unit conducts periodic on-site examinations to verify the quality of assets, adequacy of stated liabilities, general operating results, and market conduct of the regulated entity.

Specialty Product Administration is organized into four principal sections:

Continuing Care Retirement Communities (CCRCs) and Donor Annuities Section

- Reviews CCRC applications for certificates of authority and acquisition;
- Regulates authorized CCRCs for statutory compliance and monitors solvency;
- Reviews Donor Annuity applications for registration;
- Regulates Donor Annuity entities for statutory compliance; and
- Investigates unauthorized entities.

Viatical Settlement Section

- Regulates Viatical Settlement Providers and Life Expectancy Providers;
- Reviews Viatical Settlement Provider applications for licensure and acquisition;
- Reviews Life Expectancy Providers applications for registration;
- Regulates Viatical Settlement Provider and Life Expectancy Providers for statutory compliance;
- Participates in pre-licensing examinations of applicants;
- Participates in field and target examinations of licensees; and
- Investigates unauthorized entities.

Warranties and Financial Services Section

- Reviews applications for licensure, certificates of authority and acquisition;
- Examines for statutory compliance; and,
- Regulates and monitors company solvency for the following license types:
 - Insurance Administrators;
 - Premium Finance Companies;
 - Motor Vehicle Service Agreement Companies;
 - Service Warranty Associations;
 - Service Warranty Manufacturers;
 - Home Warranty Associations; and
 - Legal Expense Insurance Corporations.

Field Examination Section

- Performs on-site financial and market conduct examinations of companies regulated by the unit - the section performed 133 examinations in 2009; and
- Performs target examinations and investigations, on an as-needed basis.

Unit Stats

In 2009, the Unit conducted 133 on-site field examinations and 2,497 in-house financial statement reviews and analyses. As of December 31, 2009, there were 1,551 licensed or otherwise regulated Specialty entities.

An Analysis of the Impact of the Insurance Industry on the Economy of the State in 2009

Pursuant to Sections 624.313(h), 624.313(j), and 624.315(g), Florida Statutes

The Florida insurance industry continues to be an important economic driver for the state's overall economy. According to data from the Bureau of Economic Analysis (BEA), in 2008 (the last year for which data are currently available) the insurance industry created \$19.9 billion of the state's \$744.1 billion gross domestic product (2 percent).

Moreover, the Florida insurance industry continues to be a significant driver to overall state employment. The BEA estimates that in 2008 the industry accounted for 181,757 jobs. For the same year, the BEA estimated the Florida aggregate labor force at 10.4 million jobs so that the insurance industry employment accounted for 1.7% of total state employment.

Additionally, for Fiscal Year 2008-2009 the Florida Department of Revenue collected \$667.4 million in insurance premium taxes.

Indirect Effects

In addition to the direct contribution of insurance companies to the economy, a well-functioning insurance industry has important secondary effects on the state's economic well being and development. Insurance, whether it is insurance purchased by employers for their businesses and employees, property insurance purchased by homeowners to protect their most important investment, or life and health insurance, the state's economic health is inextricably tied to its insurance market.

In the area of employer-purchased insurance, the legislative changes made to the Workers Compensation law in Florida in 2003 continued to stabilize and grow a robust market through 2009. As noted in the Office's [2009 Workers' Compensation Annual Report](#), rates continued to fall, reflecting cumulative declines exceeding 63% from 2003 to 2009.

Property insurance is always an area of interest and concern in the Florida marketplace because of the possibility of catastrophic hurricane losses. While there were no hurricane losses in 2009, other losses, notably sinkhole claims and reopened claims from prior hurricane events, continued to put some stress on insurers' profitability and in some cases reserves and surplus. These strains were offset somewhat by improvements in the reinsurance market, which saw a stabilizing of rates and somewhat enhanced capacity.

Programs to inspect, grade and mitigate homes funded by the Legislature in previous years were not available again in 2009 as a result of budget pressures resulting from the global financial turmoil. Similarly, matching funds programs designed to attract new writers could not be continued.

The absence of hurricane activity in 2009 resulted in an improved financial position for the Florida Hurricane Catastrophe Fund (FHCF). Retained premium and investment income, along with an easing of credit market conditions, allowed the Fund the ability to be able to fully fund its promised coverage should an event occur.

As well, owing to some degree to an increase in capacity in the global reinsurance market, not all of the coverage available above the FHCF's mandated exhaustion point through the Temporary Increase in Coverage program was purchased.

In 2009, the Office did not determine that an availability problem existed for any lines or kinds of insurance in Florida.

Company Activities

This section is a summary of the financial information and activities of companies authorized to transact insurance-related business in Florida.

The data contained herein do not include surplus lines carriers, Citizens Property Insurance Corporation, or risk retention groups.

FLORIDA PROPERTY AND CASUALTY INSURANCE CALENDAR YEAR EXPERIENCE pursuant to Section 627.915(2), FS Data Reporting Form: OIR-DO-308	Fire	Homeowners multiple peril	Commercial multiple peril (non-liability portion)	Commercial multiple peril (liability portion)	Medical malpractice

Consumer Complaint Ratios for CY2009

as submitted by FL-DFS to NAIC Complaint Database (CDS)

Pursuant to 624.313(i), F.S.

Rule 69O-142.002 of the Florida Administrative Code implements Section 624.313, F.S., which requires the Office to publish complaint ratios for the 10 largest insurers or insurer groups by line of insurance for each insurer or insurer group that has one percent or more of the market share. Although this rule does not apply to private passenger automobile insurance, this report does provide a summary of this coverage.

For purposes of this complaint index reporting:

“Complaint Share” is the number of complaints received by the Office relative to the insurance industry expressed as a percentage.

“Complaint” is any written communication by an insured or named beneficiary expressing dissatisfaction with an insurance entity over which the Office has regulatory authority. This does not include complaints against an incorrect entity; complaints against companies providing administrative services for self-funded benefit plans; complaints for properly filed or approved rates; suspected fraudulent claim complaints; and complaints that are duplicative or frivolous. The Office extracts these numbers from the NAIC database; the NAIC receives the data from the Department of Financial Services, and standardizes the definition of complaints across 50 states.

“Market Share” is the company’s direct written premium relative to the industry for a given line of insurance. The report expresses this ratio as a percentage.

“Premiums” are consideration paid to an insurer for the issuance and delivery of any binder or policy of insurance or annuity written directly to the consumer.

“Complaint Index” is a ratio derived by dividing a company’s complaint share by its market share.

1. A complaint index of greater than 1.00 indicates the company’s complaint share is disproportionately higher than its market share for a specific line of insurance.
2. A complaint index of less than 1.00 indicates the company’s complaint share is disproportionately lower than its market share for a specific line of insurance.

Complaints Year: 2009 Total Complaints for Index: 3,709

Policy Type: Homeowner

Premiums Year: 2009 Total Premiums for Index: \$6,932,273,774

States selected for Index: FL

Complaint Set used: Confirmed Complaints

Report Date: 10/07/2010

Database: DSSSPLP

A= Licensed but had no enrollment

B=Operations for one month

Medical loss ratios are generally used as an indicator to determine the percentage of the HMO's premium dollars which are used to pay claims. It is calculated by dividing incurred losses by total revenue. Although the medical loss ratio is a ratio which is used to determine the percentage of premium dollars which are spent to pay claims, it is only one indicator among many which address the quality of health care provided by the HMO.
